Father Cuthbert sends runner - there is apparently a woman in labor/childbirth and he asks the party to attend him in hopes that Terry can help.
Party arrives at church just as the wailing can be heard from the mother in the back.
Suddenly quiet, then Father Cuthbert comes out of the back, stained with the woman's blood.
Cuthbert, distraught and weeping, gets fierce look of determination on his face and rushes past the other priests, headed for the symbol on the floor
Cuthbert makes a Wish to Pelor that he deliver them from this horror.
Suddenly, Pelor shows - possessing the body of Cuthbert, standing on the symbol head glowing, etc
Then Boom - blinding flash of light and symbol breaks.
Everybody else, including Cuthbert:
Everybody loses eyes, Cuthbert as well.
Shrop: Blinded
Have scene where he is wandering, people are bumping into him, he's lost. Then his new god shows, grants him boon. He has no eyes, has a scary visage, charisma penalty.
Terry: New Level
Terry glows a bit, gets his new level and a new desire/drive to get on with the adventure as soon as possible.
Thunder: Deliverance
Thunder is able to dodge the blast of light, reacting quickly enough to get behind cover, saving just Grim. He is not blinded or affected here.
Thunder needs to train on Deliverance with Timothy Pepper. Pepper teaches him how to slide in and out of Etheral plane like a ghost.
Grim: Saved by Thunder, not directly affected by the blast.
Grim can now control up to three familiars. However, Weasels death will have penalties due to close bonds. Install 3.5 rules for Familiars minus the year and a day thing.
Weasel: Dire transformation
Weasel is transformed by the blast into a Dire Weasel. Do a little transformation video. Grim gets advanced control for Summoning any magical creature.
