FEATURES & TRAITS

Second Wind
You have a limited well of stamina that you can draw on to protect yourself from harm. On your turn, you can use a bonus action to regain hit points equal to 1d10 + your fighter level. Once you use this feature, you must finish a short or long rest before you can use it again.

Fighting Style: Defense
While you are wearing armor, you gain a +1 bonus to AC.

Darkvision
Thanks to your orc blood, you have superior vision in dark and dim conditions. You can see in dim light within 60 feet of you as if it were bright light, and in darkness as if it were dim light. You can't discern color in darkness, only shades of gray.

Relentless Endurance
When you are reduced to 0 hit points but not killed outright, you can drop to 1 hit point instead. You can't use this feature again until you finish a long rest.

Savage Attacks
When you score a critical hit with a melee weapon attack, you can roll one of the weapon's damage dice one additional time and add it to the extra damage of the critical hit.

Military Rank
You have a military rank from your career as a soldier. Soldiers loyal to your former military organization still recognize your authority and influence, and they defer to you if they are of a lower rank. You can invoke your rank to exert influence over other soldiers and requisition simple equipment or horses for temporary use. You can also usually gain access to friendly military encampments and fortresses where your rank is recognized.

Additional Fighting Style
At 10th level, you can choose a second option from the Fighting Style class feature.

Extra Attack
At 20th level, you can attack four times, instead of three, whenever you take the Attack action on your turn.

Alert
Always on the lookout for danger, you gain the following benefits: You can’t be surprised while you are conscious. You gain a +5 bonus to initiative. Other creatures don’t gain advantage on attack rolls against you as a result of being unseen by you.

Remarkable Athlete
Starting at 7th level, you can add half your proficiency bonus (round up) to any Strength, Dexterity, or Constitution check you make that doesn’t already use your proficiency bonus. In addition, when you make a running long jump, the distance you can cover increases by a number of feet equal to your Strength modifier.

Master Jumper
[Handout](http://journal.roll20.net/handout/-MIUiLGC8O9i_dlu-8hS)

Indomitable
You can reroll a saving throw that you fail. If you do so. You can use this feature three times between long rests starting at 17th level.

Fighting Style: Protection
When a creature you can see attacks a target other than you that is within 5 feet of you, you can use your reaction to impose disadvantage on the attack roll. You must be wielding a shield.

Superior Critical
Starting at 15th level, your weapon attacks score a critical hit on a roll of 18-20.

Action Surge
Starting at 17th level, you can use this feature twice before a rest, but only once on the same turn.

Survivor
At 18th level, you attain the pinnacle of resilience in battle. At the start of each of your turns, you regain hit points equal to 5 + your Constitution modifier if you have no more than half of your hit points left. You don’t gain this benefit if you have 0 hit points.

Boon of Foresight
You gain unparalleled foresight. You can't be surprised, and you have advantage on attack rolls, ability checks, and saving throws. You also gain the 'Uncanny Dodge' ability. Source: Blessing of Eldath

SPELLS

Maximillian's Earthen Grasp
Transmutation 2
Casting Time: 1 action
Range: 30 feet
Target: A 5-foot-square unoccupied space on the ground that you can see within range
Components: V S M
Duration: ConcentrationUp to 1 minute
Description:
You choose a 5-foot-square unoccupied space on the ground that you can see within range. A Medium hand made from compacted soil rises there and reaches for one creature you can see within 5 feet of it. The target must make a Strength saving throw. On a failed save, the target takes 2d6 bludgeoning damage and is restrained for the spell's duration. As an action, you can cause the hand to crush the restrained target, which must make a Strength saving throw. The target takes 2d6 bludgeoning damage on a failed save, or half as much damage on a successful one. To break out, the restrained target can use its action to make a Strength check against your spell save DC. On a success, the target escapes and is no longer restrained by the hand. As an action, you can cause the hand to reach for a different creature or to move to a different unoccupied space within range. The hand releases a restrained target if you do either.
